

Siyabonga Jiyane

Software Developer

☎ 081-468-1251 ✉ siyabongacooper69@gmail.com

7306 Ramabanta Street, Brakpan, Tsakane
1550

SUMMARY

Entry-level IT student with a solid foundation in software development, programming principles, and problem-solving. Experienced in applying theoretical knowledge through academic projects and practical coursework. Able to collaborate effectively in team environments and communicate technical concepts clearly. Highly motivated to grow as a developer and contribute to innovative technology solutions.

EDUCATION

Tsakane High School

National Senior Certificate (NSC)

01/2020 – 12/2020

Cape Peninsula University of Technology, CPT, WC

Diploma in ICT Applications Development

01/2022 – 12/2025

WORK EXPERIENCE

Plum Systems Company

Bellville, CPT

Full Stack Software Developer Intern

Start Date: 01/2025 – 12/2025

At Plum Systems, I contributed to the design, development, and enhancement of internal business applications with a strong emphasis on performance and scalability. I built and tested backend services that increased processing efficiency, refactored legacy code to reduce technical debt and system defects and developed RESTful APIs to enable seamless system integration. I applied database optimization strategies that improved query performance and used Git for effective version control and code management. Working in cross-functional Agile teams, I actively participated in daily stand-ups, sprint planning, and retrospectives, resulting in improvement in feature delivery speed and improved user satisfaction. I also took part in code reviews and quality assurance processes, promoting best practices and continuous improvement. Additionally, I developed a responsive desktop user interface using Java and JavaX, focused on delivering an intuitive and user-friendly experience

SKILLS

Programming Languages

- Java(Object–Oriented Programming)
- Python
- JavaScript
- Html
- CSS

Framework and Tools

- Spring Boot
- React (Context API, Redux)
- SDLC(Software Development Life Cycle)
- Version Control(Git/GitHub)

Database Management

- Relational Database(SQL)
- PostgreSQL

Documentation Tools

- MS Word
- Notion

SOFT SKILLS

- Adaptability
- Problem–solving
- Effective communication
- Attention to detail and accuracy
- Teamwork
- Time management.

ACADEMIC PROJECTS

- Student Enrollment System (Java & SQL) – Designed and implemented a system to manage student registrations and enrollment processes. Applied relational database concepts, data validation, and CRUD operations to ensure data integrity and efficient system functionality.
- CPUT Student Housing Connect (Java 21, Spring Boot, Spring Data JPA, Spring Web & MySQL) – Developed a full–stack web application to address student accommodation challenges at CPUT. Implemented role–based functionality for students, landlords, and administrators, designed RESTful APIs, and integrated database persistence.
- Online Vehicle Voting System (Java, Sockets & Swing) – Developed a client–server online voting system using Java socket programming. Implemented server–side vote processing and data management, with a Java Swing–based client interface.
